New This Year!

In our continuing efforts to share information about STEAM education and career pathways, we are adding something new to the Expo this year! We are asking our Expo Table Companies to create a handout that highlights the STEAM based career pathways at your company. Consider including a short bio of the volunteers at your table (education, careers, interests outside of the workplace) on the back of the handout. We will include signage at the event to draw attention to those tables that include this special handout!
